

PRODUCT SPECIFICATION

- Standard Specification -

ALMOND OIL, COSMETIC

Master Art. No. 74300

Production:

Almond Oil cosmetic is composed of refined Almond Oil and other high quality refined vegetable oils. Fat chemical data comply with the regulations of the USP 30-NF 25. The cosmetic blend is of light yellow colour and nearly odourless.

Chemical Data:

	min.	max.
Specific gravity (20 degree C)	0,911	0,916
Refractive index (20 degree C)	1,467	1,473
Acid value		0,5
Iodine value	95	105
Saponification value	190	200

Storage:

Light protected, not above room temperature, in tightly sealed containers (nitrogen blanketed). Once open to be used immediately.

Usage:

Almond Oil cosmetic blend is one of the major bases in many cosmetic skin- and body care products (oily solutions, emulsions, and creams). It is easily absorbed by the upper skin layers and because of its lipid-replenishing properties very suitable in dry skincare products.

This specification was developed with utmost care based on up-to-date information available, but should also be scrutinised by the recipient. It does not release him from checking the quality of the goods delivered with proper diligence.
